SPECIFIC ENVIRONMENTAL CONCERNS AND AVOIDANCE/MITIGATION MEASURES

Environmental Concerns:	Avoidance/Mitigation Measures:
<p>Volume of material recovered from the lake must be tracked</p>	<p>For each vacuum truck recovering liquid material, complete the following:</p> <ol style="list-style-type: none"> 1. Document which company owns the truck and truck ID 2. Record date of load 3. Vacuum truck operator to drain recovered liquids from vacuum truck into Lakefront bar screen until oil observed at drain 4. Once water removed from truck – vacuum truck operator to measure amount of oil remaining in drum (via outage or other appropriate method) 5. Record outage or calculated volume of oil recovered in each truck
<p>Oil-containing solids must not be transferred from Lakefront to Cat Pad</p>	<p>If solids are expected in vacuum truck, then vacuum truck operations must utilize vacuum box to collect material, Vacuum box may then be dewatered to the Lakefront sewer system</p>
